PROJECTS

Zara Clone Web (04/2022 - 04/2022) [🔗](#)

- Login, Signup Page & Create Account.
- Product Page, Add to Cart, Payment Section.
- Tech Stack : HTML | CSS | JavaScript | DOM | Local Storage.
- Area of Responsibility : Develop multiple product and product details page, and filter the product by name, rating and price and add product to card.

Text-Transform (05/2022 - 05/2022) [🔗](#)

- Text transform is a simple tool to manipulate the text, text transform can convert the text into uppercase as well as into lower case it can count the number of words in your text and number of characters.
- It can remove extra space from your text and have added a feature which can change the mode(light to dark), have used React.js. [🔗](#)

Chat App using HTML, CSS JS and Node JS. (03/2022 - 03/2022) [🔗](#)

- Used the Node.js to build a real chat application that sends and shows messages to a recipient instantly without any page refresh.
- Used the JavaScript framework Express.js and the libraries Mongoose and Socket.io to achieve this.

E-commerce Website front end. (10/2021 - 12/2021) [🔗](#)

- E-commerce app using HTML CSS and JavaScript we mainly focuses on frontend part.
- In frontend part design home page, features page, product page, categories page, blog page, review page and blogs page.

Salary Prediction System using ML (01/2021 - 02/2021) [🔗](#)

- Used python, used linear regression algorithm for predicting the salary of employee.
- The goal is to train the model in such a way that if we tell years experience field value to model then the model should be in a position to predict the Salary field value and the value should be closer to the actual value.

WORK EXPERIENCE

Node JS Developer Intern

Relinns Technology

01/2022 - 03/2022

Mohali

Tasks
